BEYOND ENGAGEMENT TRAINING

Unlock Energy - Get Better Results!

At the end of the day, we all deserve to leave work feeling fulfilled and with energy left over to contribute to our family and community, and for our personal pursuits. In fact, our work day immeasurably shapes the quality of our life; and our life immeasurably shapes the quality of our work day. When energy goes home, it comes back to work the next day in all the ways that matter - great customer experience, great results, innovation, resilience, and more.

Juice Inc. has helped leaders get engagement unstuck and energize workplaces for 20 years. But here's the paradox: the more leaders focus on engagement, the more disengaged people can become. One of the biggest obstacles? How people leaders think about engagement.

Leaders who leverage the science of energy unlock their people's bottled-up potential. The resulting energy fuels great customer experiences, innovative ideas and leads directly to great business results. The bottom line - when leaders focus on energizing their team, they get engagement (but the opposite isn't true). In fact the opposite generates a team that is engaged, but exhausted. And we know that when energy is not going home at the end of the day, it's probably not coming back to work the next.

BEYOND ENGAGEMENT: Training Overview

This full-day interactive learning experience, based on the book *Beyond Engagement*, equips leaders and teams with the mindset, skillset and toolset to partner with their people, remove interference and release energy by tapping into what matters most.

Beyond Engagement training will equip leaders to:

- 👤 Partner with people to achieve results, rather than micro-managing.
- 👤 Lead better by understanding and applying the universal five driving human needs: meaning, belonging, security, significance, and freedom.
- 👤 Inspire others by setting them up for success.
- 👤 Boost team energy and deepen their engagement.
- 👤 Identify and balance competing needs and priorities.
